

Barbara Semeniuk

Author, Speaker, Industry Safety Guru

Who Is Barbara Semeniuk?

Safety Guru, because the 20 years of Industrial Health and Safety advice that Barbara offers saves lives... and forces your company to take a look at what might get in the way of keeping your employees safe and happier on the job.

Speaker, because she reflects the dynamic professionalism of the Canadian Association of Professional Speakers (CAPS)... Barbara facilitates inspiring Industrial Health and Safety programs. She conducted over 500 audits of companies both large and small in the Construction, Food Processing, Oilfield, Trucking, Retail, Security, and Manufacturing industries. She taught auditing skills at Red Deer College, for the Food Processor's Association, the Manufacturers' Health and Safety Association and the Alberta Construction Health and Safety Association (ACSA). Barbara also pioneered the creation of ACSA's auditor training course and the peer auditing system.

Any company in the Construction, Food Processing, Oilfield, Trucking, Retail, Security and Manufacturing industry who were wise enough to hire Barbara see transformations in their offices, construction sites and experience greater satisfaction in the quality of health and safety in general.

More about Barbara: As President of Purcell Enterprises, Edmonton's premier safety and loss management consulting firm, Barbara welcomes everyone to learn more about how to reduce their costs of incidents and measure their Occupational Health and Safety Management systems.

And still more credentials: Barbara Semeniuk has a Bachelor of Science degree from Simon Fraser University (1982), an Occupational Health and Safety Diploma from the British Columbia Institute of Technology (1988) and a certificate in Adult and Continuing Education from the University of Alberta (1993). She is a member of the Canadian Society of Safety Engineering, the American Society of Safety Engineers, and belongs to the Association of Canadian Registered Safety Professionals (since 1995).

Barbara will enlighten you on what really works in Safety standards today in her unique way. She shares her time-tested initiatives such as the Balance Score Card Measurement System, the Hardiness Factor in a passionate and humorous fashion. That's right, using humor according to Barbara, makes the difference when handling Health and Safety issues.

And there's more. Her clients, by participating in the Partnerships program and receiving their Certificate of Recognition, can achieve cost reductions in premiums from the Workers Compensation Board of Alberta. It is a win-win solution for management, labor, and government.

A true mentor and safety guru, Barbara Semeniuk will show you exactly how to build or rebuild your business safety procedures through proper use of Health and Safety audits.

As an Author, Barbara Semeniuk specializes in industrial and high-tech safety and loss management articles about how to improve the safety policies and safety management systems in your company.
