*"The response to Darci's presentation at our staff meeting was extremely positive and although I am not surprised, I am a bit awestruck by the level of emotion expressed in the event evaluations and the deep value people took away from her message. Without a doubt, Darci is motivational - she is also a no nonsense Reality-Check Task Master!"*

**Jennifer Redston, Saskatchewan Ministry of Environment**

*I cannot tell you how many people have positively commented on your presentation or how many times I've raved about it to others and it's only 3:15 the day after! You are a living example, for me, of what I need to change and even how I can start off with my 'time' outside of the house to gain my 90% and leave my 10% outside of those doors! I truly thank you for making a difference.*

**Valerie Lukash, Sasktel**

*Darci Lang's message was warmly accepted and heard by our group. In the days and weeks since then, I notice that people still have their magnifying glass at their desks, and I often hear a reminder to focus on the 90%.....both of these proof that the message was important enough to remember and 'own', and delivered expertly! I encourage other work groups or really, any group, to take the opportunity to listen and learn from Darci!*

**John Boyle, FCC**

*In today's turbulent world Darci's message "Focusing on the 90%" was the perfect summary to end our conference wrapping it up in a neat bow. Her ability to personally connect with each of our delegates kept them on the edge of their seats and wanting more. She filled them up giving them energy to take back to their work and families.*

**Paul and Brian, Western Cities Conference**

*"Darci Lang's message was extremely well received by the staff of the Saskatoon Health Region. Darci's pre-work in learning what our issues were (what she calls "ground truth") helped her customize the message to our audience. In addition, the concepts in the message "Focus on the 90%" aligned and supported our current cultural transformation initiatives which are centered around how we live out the organization values in every interaction. We would like to have her expose her message to more staff and are planning to bring her back soon for additional sessions."*

**Betty Mutwiri, M.A, Manager, Learning & Leadership, Saskatoon Health Region**

*Feedback has been excellent, with many saying it was the best Teamwork Day by far. I just wish we could have booked you for two days instead of the one so we could have more time with you – Markham loves you!*

**Town of Markham**

*"You inspired and motivated many of our future leaders in this Department and the federal government and I believe that by leading with this principle, we can cultivate a strong and committed workforce within the department to drive our future initiatives forward."*

*Very natural, common-sense approach. Spoke from the heart – very focused. Darci is unique in her approach and within a few minutes of her speech appeared to make everyone in the room feel very comfortable and at home. I really enjoyed Darci, especially when she talk about her background and life. It reminded me that you can't ever tell or pre-judge anybody. *"I have been in attendance at many sessions over my 25 years with the Federal Government and I can honestly say that I have never been moved as much as I was listening to you. I must admit that when I first saw the schedule of events and the time allotted I was somewhat skeptical that you would be able to keep your audience's attention for that long. What a nice surprise! I ended up wishing your session would have been longer. Thank you for a wonderful inspiring message."*

*Your presentation was a wonderful mixture of entertainment and education. The response from our staff to your message has been overwhelming and opened up many discussions.*

**Sun West School Division**

*You are entertaining, informative, inspiring, and above all else, you are authentic. I can recognize quality delivery and “teaching” and that’s what I saw in your presentation. You taught us to look at ourselves and seriously reflect on where we are placing the magnifying glass (i.e. on what’s right with the world or what’s wrong). Yes, we may intuitively know that the “positive way” to approach our lives and careers, but you framed and packaged your ideas in new and innovative ways which caused us all to really think about how to interact with people and the world. You provided the conditions for us to “learn and relearn” some important truths. Thanks so much for re-energizing all of us.*

**Holy Trinity Roman Catholic Separate School Division #22**

*Darci’s presentation is like a “feel good movie”. You can take away as much as you are willing to open yourself up to. Thank you Darci, your presentation was uplifting, self-reflecting and inspirational!*

**Thomas Cook/ Marlin Travel**

**Manitoba Organizational Staff Development**

*Keynote speaker Darci Lang touched upon the theme of the Torch Awards and its celebration of positive business and community relationships with her simple message: focus on the 90% that is positive in your life rather than spending your energy on the 10% that is not. This is a great attitude not only for businesses but also for individuals, families, and the province.*
